Scientific & Regulatory Consultants, Inc. provides a full range of regulatory services for the antimicrobial industry. Our consultants' insight provides scientifically-sound, cost-effective, and timely solutions to routine and complex issues facing our clients. Our collective knowledge base includes experience in industry, laboratories and with government entities. For more information about Scientific & Regulatory Consultants, Inc. visit our website at www.srcconsultants.com

PROFESSIONAL EXPERIENCE

Scientific & Regulatory Consultants, Inc., Columbia City, IN 2016 - Present

Consulting Associate (2018 – present); promotion

Consulting Specialist (2016 – 2017)

- Assist with efficacy study design and management including the development of protocols, testing strategy, troubleshooting, and final report review
- Technical writing including label development, sales literature, and journal articles
- Prepare documents for EPA registration and amendment submissions
- Complete registrations and amendments for California Dept. of Pesticide Regulation (DPR)
- Conduct competitive surveillance research
- Prepare monthly 6(a)(2) reports

Northwestern University, Chicago, IL 2008 - 2015

Graduate Student (Microbiology)

- Developed and tested scientific hypotheses regarding siderophore-mediated iron acquisition in *Legionella pneumophila*
- Developed and introduced new laboratory protocols
- Collected, analyzed, and interpreted data
- Published research findings in peer-reviewed journals
- Presented research findings at professional meetings
- Handled Biological Safety Level 2 organisms and ensured compliance to laboratory safety protocols
- Utilized microbiology and molecular biology techniques
- Mentored and trained new laboratory members
- Teaching assistant for graduate-level molecular biology and genetics course

Indiana University-Purdue University Fort Wayne, Fort Wayne, IN 2004 - 2008

Research Technician (Virology) (2007-2008)

- Designed experiments to test hypotheses regarding interactions among Varicella-zoster virus encapsidation proteins
- Employed virology, molecular biology and biochemistry techniques

- Collected, analyzed, and interpreted data
- Presented research findings at professional meetings
- Published research findings in peer-reviewed journals

Student Research Assistant (2004-2007)

- Developed and tested scientific hypotheses
- Collected, analyzed, and interpreted data
- Prepared written grants and fellowships

EDUCATION

Ph.D. in Microbiology, Northwestern University, Chicago, IL; 2015
