

GLP Quality Assurance Specialist

Seeking an experienced microbiologist with QAU experience to join our staff of consultants.

SRC is a premier consulting firm providing scientifically-sound, cost effective, and timely solutions for our clients.

We Are Hiring!

Job Summary:

Both local and remote work positions are available. Predominately focused on performing QA review of GLP efficacy testing on antimicrobial disinfectants. Role will involve building relationships with clients, laboratories, and regulators, placing and managing testing to achieve desired marketing claims, and reviewing study reports.

Benefits:

- Remote or In-Office Positions Available
- Salary commensurate with experience
- Bonus incentive program
- Health, Vision, Life, Disability insurance
- Health Savings Account
- 401(k)
- Tuition Reimbursement Program

Responsibilities

- Perform data audits and report reviews to assure accuracy and compliance with Good Laboratory Practice (GLP) regulations, study protocols, and US and international testing guidelines
- Place and manage GLP and non-GLP efficacy studies
- Design antimicrobial test methods
- Negotiate with regulators on behalf of client(s)
- Develop testing strategy unique to each client
- Follow national and international regulatory issues
- Manage relationships with laboratory staff
- Provide external training
- Create/review SOPs and validation documentation
- Perform client/lab audits
- Participate in trade association meetings

Qualifications

Required:

- BS Technical Degree
- Experience managing laboratory testing
- Strong leadership skills, excellent written and verbal communication, and attention to detail
- Innovative problem solver

Preferred:

- EPA FIFRA and/or Quality Assurance Unit experience
- Previous experience with government regulatory agencies
- 5+ years of experience in regulatory affairs
- Knowledge of:
 - EPA Good Laboratory Practices
 - EPA/DPR regulations
 - RQAP-GLP
 - AOAC and ASTM methods
 - Antimicrobial efficacy testing
